It is described as an especially powerful, virile and moving story, full of fine human nature. The plot tells how a Kentucky gentleman gambler uses his rare domestic and mental-telepathic gifts to save a young man from the consequences of accidental murder. Mr. McGregor's company has the endorsement of the author and is said to be entirely worthy of its task, than which there could be no higher compliment.

GOVERNMENT REGULATION FOR OUR GRANITE MANUFACTURING PLANTS

Should the Ventilating System of Our Granite Manufacturing Plants Become Subject to Government Regulation?

This question often presents itself in the course of conversation among granite manufacturers, and the problem is far from being solved. Meanwhile good men are gradually becoming disabled and passing to the great beyond. The manufacturers are willing and anxious to procure better ventilating systems that will become practical. They know only too well the danger that a man encounters when he works in a shed that is destitute of any method or means of ventilation and they manfully meet the situation and spend thousands and thousands of dollars to protect their employees. Everybody with the right public spirit is on the lookout for the advancement of mechanical and human agencies for the health, happiness and comfort of the workingman. The Barre Drug company has prepared a mixture of tincture and wild cherry in the form of a syrup, for the relief of bronchial and lung affections and it's an ideal remedy for coughs and colds. It is conveniently put up in bottles that cost 25 and 40 cents and, further, every bottle is guaranteed to give entire satisfaction or you can get your money back. This proposition should appear to you who have a hacking cough. "It's good, every drop." Keep in mind the store, corner of Main and Merchant streets, Depot Square drug store.

We Are Sure

You've noticed one thing about us. We are sure. This store doesn't treat you like a bargain hunter. Our argument is not directed at your low price sense. We figure that there are enough people in Barre who measure the price they pay for what they get for it.

That's what really makes a bargain and it makes everything in this store big value for the price.

A Marked Outpouring.

Vermont has probably never seen quite so general an outpouring of public men as that which comprised the assemblage at the funeral of ex-Governor Proctor last Friday. Both senators and both representatives in Congress; every state official elected by ballot, and many legislative and appointive ones; members of the courts, collectors of customs, present and past; no less than eight surviving ex-governors; men without office known as leaders of local thought—all were there. It is to the credit of the newspaper fraternity that a very large representation paid their

respects to one who never sought to work them; but for whom they worked gladly.—Randolph Herald.
